ProviderSuite Web Application

Enable Users to set preference for default ICD code set

Users with access to the Account Setup screens can now set an ICD Default in ProviderSuiteWebApp > Setup > General > ICD Default with the options of Neither, ICD-10 or ICD-9. The initial setting will be ICD-9.

ICD Default

Choose default setting for ICD Codes

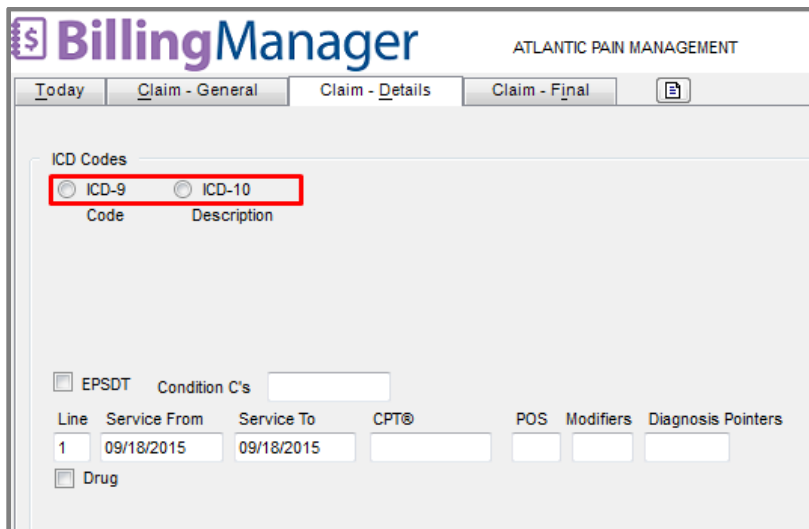

☒ Neither
 ☐ ICD-10
 ☐ ICD-9

Update

Claim Entry Screen

The ICD Codes Option on Claim Entry screen will be defaulted to ICD-9. User can switch between ICD-9 and ICD-10 by selecting the radio buttons and pressing Update.

The code entry box will be enabled as soon the user selects one of the radio button and the user will be able to enter the codes as per the selected ICDcodes options.

Update Reports that use ICD codes to allow for ICD-10

1. Claim Details with Allowed Amounts
2. Claim List by Diagnosis
3. Claims & Pat Pmts by Date Posted, Detail
4. Claims by DOS
5. Claims by DOS - By Patient
6. Claims by DOS with CPT Detail, by User
7. Denied Claim Details
8. Diagnosis Analysis - Primary Diagnoses
9. Injury Report
10. Patient Itemized Statement
11. Patient Itemized Statement - all DOS
12. Pre-Authorizations

Optimize Report – Claims by DOS with CPT Detail, by Patient

The queries used for the 'Claims by DOS with CPT Detail, by Patient' and 'Claims by DOS/Accounting Date with CPT Detail' reports have been optimized to allow larger date ranges to be used.

Compatibility with Microsoft IE 11 on Windows 8.1 and Windows 10

The ProviderSuiteWebApp, Billing Manager applet, and Schedule Manager applet have been tested with the Microsoft Internet Explorer 11 browser running on Microsoft Windows 8.1 and on Microsoft Windows 10.

1. Users are able to login successfully
2. Users are able to navigate the screens of the ProviderSuiteWebApps successfully
3. Users are able to install and launch the Billing Manager and Schedule Manager applets

Compatibility with Microsoft Edge on Windows 10

The ProviderSuiteWebApp, Billing Manager applet, and Schedule Manager applet have been tested with the Microsoft Edge browser running on Microsoft Windows 10.

1. Users are able to login successfully
2. Users are able to navigate the screens of the ProviderSuiteWebApps successfully
3. Users are able to install and launch the Billing Manager and Schedule Manager applets

Add ICD-10 Support to Pre-Auth Screen

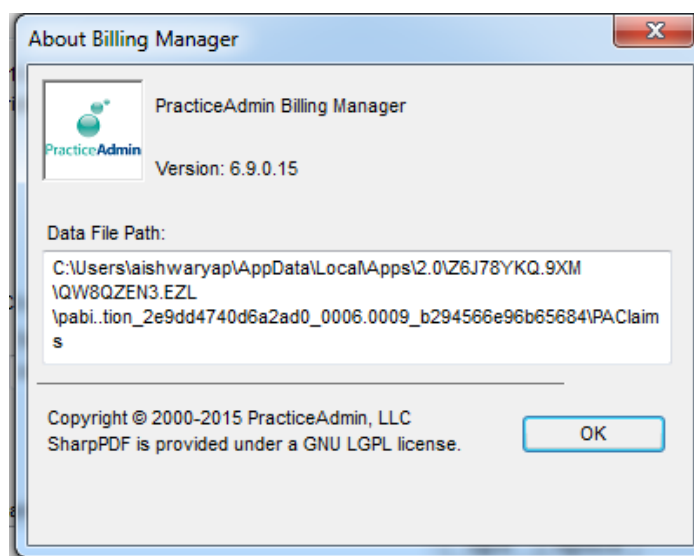

The Pre-Auth screen (**Billing Manager>Setup > Patients > Pre-Auth** tab) has been updated to support ICD-10 codes.

- The label has been changed to ICD Codes.
- Separate radio buttons for ICD-9 and ICD-10 codes have been added.
- The screen logic has been updated to check for ICD-10 code validity

Enhance Billing Manager “About” Dialogue Box

The "About" dialogue box (Billing Manager > Help >About) has been updated and the **Data File Path** (formerly located under Practice Management > Options) has been moved to Help >About and made copyable.

Update menu structure in Billing Manager

- Patients, Companies, or Referring Providers, previously under Practice Management, have been moved to a new top-level menu item named Setup.
- The Accounting sub-menu, previously under Practice Management, is now its own top-level menu, still named Accounting.
- The Reports item, previously under Practice Management, is now its own top-level menu item, still named Reports.
- The Print item, previously under Practice Management, is now its own top-level menu item, still named Print.
- The GEMs Search feature, previously under Practice Management, is now its own top-level menu item, still named GEMs Search. This is a tool that helps crosswalk between ICD-9 and ICD-10 diagnosis codes. Developed by CMS, the General Equivalency Mapping (GEM) database provides suggested crosswalks between the two code sets. The GEMs tools is also available on the Billing Manager > Claim - Details screen when selecting ICD codes for use on the claim. For more information on the GEMs tool, please see <http://www.justcoding.com/292169/gems-a-useful-addition-to-icd10cm-transition-tool-kit>
- Logout has been renamed Exit and moved from under Practice Management to the top-level menu
- The Options item, previously under Practice Management, has been deleted and the Data File Path element moved to the Help > About dialog.
- The former Practice Management top-level menu has been removed.
